THAT PUBLIC BUILDING.

Government Superintendent of
Construction is Here.

LOOKING INTO THE CONDITION

Of the Present Building—No More
Land Will be Needed for the Pro-
posed Improvement.

Capt. John H. Devereux, superin-
tendent of construction of public
buildings, is in the city. He came
here from Wilmington last Friday on
a telegraphic order from Washington
to look into the condition of the pub-
lic building here with a view to its
preservation and also in regard to
certain work that has just been com-
pleted by Contractor Woodroffe to
see whether it had been done accord-
ing to contract. Mr. Devereux also
stated that he was directed to examine
the land and surroundings with a view
to the enlargement of the building. He
said that he had made exact measure-
ments of the grounds owned by the
United States and that the govern-
ment would not need any additional
ground and that if it was desired to
enlarge the building it could be done
without the delay consequent upon con-
demning and buying land.

The visiting inspector is in close
consultation with the federal officers
located here and it is hoped and be-
lieved that Greensboro will soon have
a public building in keeping with its
prosperity and importance.

It will be recalled that some time
since a bill was introduced in con-
gress carrying an appropriation for
the enlargement of the public building
here.

The government is fortunate in hav-
ing in its service a man who is at once
so courteous and efficient as Superin-
tendent Devereux. He knows his busi-
ness thoroughly and is as careful of
the interests of the government as
though they were his own. Mr.
Devereux returns to Wilmington
tomorrow.

THE SOUTH BOUND TO WIN.

What Two New England Mill Men
Said of Our Mills.

Two gentlemen connected with the
New England cotton milling industry
were discussing the recent mill strikes
and the condition of Southern mills
recently at one of our hotels. One of
them remarked that southern cotton
mills were gradually extending their
operations to the manufacture of new
varieties of fabrics and gave it as his
opinion that northern knitters would
soon begin to feel southern competi-
tion.

The other agreed with him and ad-
ded "southern mills are bound to win
in the long run. Everything is in
their favor. The climate is better,
the operatives can live more cheaply,
labor is therefore less costly, the cotton
is grown at the doors of the mills and
freight has to be paid one way only
while fuel is cheaper because many of
the mills use wood wholly or in part."

This is given as expressing the un-
biased opinion of northern mill men.
They were not making after dinner
speeches nor writing articles for pub-
lication.

Cut in Two a Fishing Smack.

By Cable to THE TELEGRAM.

Southampton, Feb. 14.—The steamer
Columbia ran into a fishing smack in
the Channel today cutting her in two
and sinking her immediately. Six of
the crew of the smack were drowned.

Broke His Thumb.

While unloading lumber from a
wagon at Proximity late on Saturday
evening, a negro named Mathew Don-
ald broke his thumb. He suffered
considerable pain from the fracture
until Dr. Turner arrived and set the
bone.

Abraham Smith, aged 96 years, an
inmate of the Vassar Aged Men's
Home, Poughkeepsie, N. Y., is heir to
\$70,005.

Stuart G. B. Gourlay, an amateur
photographer of Brooklyn, N. Y., had
his hand torn off while taking a flash-
light picture.

Rich gold quartz has been discov-
ered in Pembina Mountains, in South-
ern Manitoba.

Notice.

It is urgent that State and county
taxes be paid at once. The money is
needed to meet current expenses and
state taxes. Will advertise land for
taxes soon. Fair warning to all.
Very Respectfully,
J. A. HOSKINS, Sheriff.

THE ROLLING EXPOSITION.

Mr. J. Van Lindley, of Pomona Hill
Nurseries, is in it.

The North Carolina exposition car,
"The City of Charlotte," has been ex-
hibiting in this city for two days. On
Saturday over a thousand people vis-
ited it and today the number promises
to be as large. The car is elegant and
the exhibits of North Carolina prod-
ucts, consisting in wood, stone, min-
eral, fish, game, cereals and fruits, is
quite complete and attractive, consid-
ering the space occupied and is well
worth several times the small price of
admission.

The particular exhibit which inter-
ested The Telegram man most was the
fruit. This exhibit is composed of
some of the finest and most luscious
looking specimens of apples, peaches,
pears, grapes, etc., which we have
ever seen and compares quite favor-
ably with the finest California fruit.
Most of it was grown by Mr. J. Van
Lindley, our enterprising countryman,
the owner and proprietor of the Po-
mona Hill Nurseries, and who has
large fruit growing interests in Moore
county.

Mr. Lindley is the only Guilford
county man represented in the exhibit.
He has a beautiful and attractive ad-
vertisement on each side of the car,
showing a picture of a field of young
nursery stock and specimens of the
many varieties of fruits grown by him.
We congratulate Mr. Lindley on se-
curing advertising space on the car, as
well as on the fine specimens of fruits
displayed inside. With many visitors
the fruit exhibit is the chief attraction,
and we are proud that it was grown
by a Guilford county man.

St. Valentine's Day.

Apollo has peeped through the shut-
ter,
And awakened the witty and fair;
The boarding school belle's in a flut-
ter,
The two-penny post's in despair;
The breath of the morning is flinging
A magic on blossom and spray,
And cockneys and sparrows are sing-
ing
In chorus on Valentine's day.

SITUATION GROWS CRITICAL.

HITT WILL CALL UP THE WIL-
LIAMS RESOLUTION.

President Asked to Furnish Informa-
tion—Every Republican Member
in His Place.

By Wire to THE TELEGRAM.
Washington, Feb. 14.—Rumors of
coming serious action in regard to
Cuba by our government have been
circulated here today. It is learned
that Congressman Hitt is going to call
up the Cuban resolutions in the house
today and the President may be driven
into taking some action in the matter.

SUMMONS OF THE CLANS.

Every republican member of the
house has received a special notifica-
tion to be at his seat in the house at
noon today. Chairman Hitt of the
foreign affairs committee intends to
call up the Williams resolution call-
ing on the president for information
regarding the situation in Cuba. This
resolution was unanimously reported
by the foreign affairs committee but it
was feared an attempt might be made
in the house to amend it. No message
from the President has been received.

A New Hotel.

It is reported that the University is
soon to have a new hotel. Mr. Peck-
ham of New York city, a brother of
Justice Peckham of the United States
supreme court, will have the old Nancy
Hilliard hotel torn down and will
erect in its stead a hotel having all
the modern improvements. The hotel
will have 35 bed rooms, besides bath
rooms and parlors; will have a dining
room 50x50 feet and a lobby 30x30
feet. It will be one of the best equipped
hotel buildings in the state and will
supply a long felt want at the Hill.
The work on it will begin this spring.

Grable Quits Promoting.

By Wire to THE TELEGRAM.
Chicago, Feb. 14.—Francis C. Grable
has given up his office in the Great
Northern hotel and the business of
promoting there is ended. The goods
have been stored and his secretary
has gone to Omaha.

WILL SHERMAN RESIGN?

Friends Are Urging Him to Take
That Step.

HE IS A WHITE ELEPHANT.

A Mere Figure-Head and Was Not
Consulted By Administration in
DeLome Incident.

By Wire to THE TELEGRAM.

Washington, Feb. 14.—If the wishes
and entreaties of his family and
friends prevail John Sherman will re-
sign his position as secretary of state
immediately. It would create no sur-
prise here if he gave up the portfolio
in a day or two. The situation for
some time has been embarrassing for
all concerned. It was accentuated by
the DeLome affair in which he as a
cabinet officer was not consulted at
any time and was more in the dark as
to the action of the state department
than two-thirds of the people at Wash-
ington. This was made painfully ap-
parent by the interviews and private
statements of Sherman. His friends
and family have urged that he resign
as soon as possible after the incident
is over.

RESOLUTION ADOPTED.

LATER—The house committee on for-
eign affairs reported and called up for
consideration the house resolution
calling upon the secretary of state for
information as to Spain's dealings
with the starving Cubans and as to
the progress of the efforts for auton-
omy. After a short debate the reso-
lution was adopted.

The senate's foreign relations com-
mittee reported against placing Allen's
belligerency amendment on the con-
sular bill and recommended that it be
tabled.

Senator Allen spoke on his resolu-
tion providing for free coinage of silver
without waiting for action of any other
country.

ARMED WITH TOBACCO.

A Striker Was Shot and Then Robbed
of Three Cents.

By Wire to THE TELEGRAM.

Wilkesbarre, Pa., Feb. 14.—John
Puti the first witness in the Martin
trial testified that three cents were
taken from him while unconscious
from two bullets in his back. He had
no idea who took his little store. He
said that he was armed only with some
tobacco. He said that none of the
strikers had clubs or weapons. There
is less interest in the trial this week
and the repetition of testimony is
becoming monotonous.

Garrison Reinforced.

By Cable to THE TELEGRAM.

Paris, Feb. 14.—The garrison of this
city has been reinforced by troops
from Versailles.

The Populist Address.

Washington, Feb. 12.—The populist
members of the senate and house of
representatives held a conference to-
night in the committee room of sena-
tor Allen, of Nebraska, for the pur-
pose of considering the address which
is to be issued to the people of the
United States early next week. The
address, which was prepared by Sena-
tors Butler and Allen, in collabora-
tion with other prominent populists in
congress, was approved and signed by
all present, after a general but in-
formal discussion of its features. It
probably will be given out for pub-
lication in the morning newspapers of
Tuesday.

De Lome's Views, Not Spain's.

Havana, Feb. 12.—Sagasta has said,
it is stated:
"Probably Dupuy DeLome wrote the
letter to Canalejas after the president's
message, because he felt disappointed
and because some parts of that docu-
ment had not answered his forecasts,
as he had previously told us that
the president would be even more fa-
vorable to Spain than he showed
himself in his message."

"Anyhow, De Lome had no business
to commit himself to any such offen-
sive remarks in a letter to a simple
acquaintance, particularly when he
expressed views contrary to the gov-
ernment he represented."

THE LOBBIES LESS NOISY.

JAURES DECLARES ESTERHAZY
THE GUILTY PARTY.

Counsel Make It Pleasant for Bertil-
lon, the Writing Expert—Tells
How he Identified.

By Cable to THE TELEGRAM.

Paris, Feb. 14.—The lobbies were less
noisy today at the Zola trial. There
was no demonstration when Zola ar-
rived. Jaures, the socialist member
of the chamber of deputies, was re-
called. He reiterated his belief in the
culpability of Maj. Esterhazy.

The examination of Bertillon, the
hand-writing expert, was resumed. He
seemed in doubt. Counsel for Zola
twisted him with being unwilling to
testify in court while giving interviews
to the newspapers.

Bertilion said that the interviews
were false and refused to explain how
he identified the writing of Dreyfus in
the secret documents before the court-
martial.

Diagnosing Gladstone's Case.

London, Feb. 12.—The Saturday Re-
view hears on good authority that Mr.
Gladstone is suffering from a specific
complaint. Some of the specialists
call it necrosis of the bone of the nose
and others fear cancer.

A dispatch from Cannes says that
provisional arrangements have been
made for Mr. Gladstone's return to
England next week in accordance with
the plan formed on his departure from
home.

The correspondent declares that he
is unable to say whether Mr. Glad-
stone has been benefited from his
visit.

Arrested The Conductors.

By Wire to THE TELEGRAM.

Boston, Feb. 14.—Twelve passenger
conductors on the New England rail-
road were arrested this morning on a
charge of conspiracy with Time-Clerk
Coyle to defraud the company. It is
stated that in two years the company
has lost \$10,000 through Coyle's man-
ipulation of the time cards. Coyle was
also arrested.

MOVING LEITERS' WHEAT.

Four Million Bushels Coming East
By Rail.

SPAIN WILL NOT APOLOGIZE.

Says DeLome's Letter Not a Basis
For Any Such Claims on the Part
of The United States.

By Wire to THE TELEGRAM.

Chicago, Feb. 14.—Letter has given
the Nickle Plate railway an order to
take 400,000 bushels of wheat to the
seaboard in addition to the 500,000
bushels secured for transportation by
the Grand Trunk railway. It is now
certain that 4,000,000 bushels will be
moved east by rail. Leiter's wheat
interests now aggregate a round 20-
000,000 bushels; 12,000,000 of this is
cash and 8,000,000 is for May.

SPAIN'S ATTITUDE.

By Cable to THE TELEGRAM.

Madrid, Feb. 14.—The Liberal com-
menting on the DeLome letter says
that it was a private document of
which this government misunderstood
the text. It is semi-officially stated
that official claims cannot be founded
on a private letter and that Spain
acted rightly in accepting the resigna-
tion of DeLome. Spanish ministers
declare that any claims from the United
States whatsoever are inadmis-
sible.

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstony had his little girl's eyes
examined in Baltimore last year and went
with the prescription to one of the largest and
best known optical houses there to have the

to the Greensboro Eye Specialist to be re-

accorded with the prescription, and so changed
them both. Mr. Vanstony sent the old lenses

M'CULLEN VS. M'MULLEN.

One of the most interesting cases to come before the supreme court in many a day was that of McCullen vs. McMullen, in which a decision in favor of the former was given, Justice Furches and Douglas dissenting after the fact. To be sure the justices departed somewhat from common usage in not giving the opinion in writing, but then the whole case was unique.

McCullen and McMullen were both young law students at the University of North Carolina. McMullen was a young man of exceptional, almost of phenomenal, brilliancy. He was of that type of young man who can work half his time, play the rest and stand at the head of his class. He never missed a question on recitation or examination before his instructor.

McCullen, on the other hand, was one of those young men whose intellectual equipment largely ends with a store of good intentions, who always fall with unerring certainty on the answer to a question the week after it has been propounded. McCullen was too tender of the feelings of his classmates to outshine them. He could not bear to see them envious.

McCullen and McMullen journeyed up to the supreme court together. When they appeared before that illustrious body it so happened that McMullen sat immediately behind McCullen, perhaps without the advice or consent of the latter. In any case McMullen sat and those present report that on examination he confined himself to that passive indication of his presence.

The learned justices adjusted their glasses, eyed the array of legal hopefulness critically and with that unerring instinct of the legal intellect for going to the crux of the question began to propound queries to McCullen. Now, McCullen was not in the least disturbed by questions. He had heard 'em before. They rolled off him like water from a new patent shingle. He knew that he should have the answers to all of them the week following and vouchsafed no replies to the interrogatories of the honorable justices.

After the justices had duly put seventeen questions to McCullen, all of which he mentally noted for future reference, they turned to McMullen. They put two questions to him which he promptly answered and they turned to others.

When the time came for a division of the sheep from the goats, McMullen, to the surprise of everybody, was a goat. The learned justices were reminded of the fact that he had answered every question. They admitted it. They had gotten the two men mixed and had rendered a decision in favor of McMullen. They admitted the error, consulted gravely on the situation and agreed that they could not give a decision one day and reverse it the next. So in McMullen vs. McMullen the former won and the supreme court has established a new precedent.

The Washington Star of Saturday contained a cut and description of the capitol building at Raleigh.

Rev. Sam Jones makes \$30,000 a year by his preaching and says that the secret of his success is the fact that he has something to say and says it.—A Contemporary.

The Riverent Samivel has things reversed. The open secret of his saying is the \$30,000.

By the time he has finished with his present experience M. Zola will be of the opinion that when truth has been crushed to earth it is not best to attempt to aid it in rising right under the nose of the crusher.

As yet Spain has not tripped over herself in her haste to propound an estimate of Mr. McKinley differing from that of DeLome.

In reply to any charge of discourtesy Minister DeLome can point out that he was doing as at least half of Rome does.

If Uncle Sam expected an apology from the Don for his Valentine he will have jumped his trolley.

BORROWED OPINIONS.

By Accident.

Senator Butler, who is opposing the confirmation of Judge Ewart, appointed federal judge of this district, told the senate judiciary committee that Judge Ewart has not the "judicial temperament." Unless Judge Ewart's reputation greatly belies him Senator Butler has for once in his life told the living truth.—Statesville Landmark.

Why he Fought.

One man called another a "liar and a Vanderbilt" up in the Statesville Landmark's county, and they "fought." He didn't mind being called a liar, recognizing the probable justice of the soft impeachment, but to have it suggested that he was in the habit of wearing a clean shirt occasionally and making a living for himself and family, being called a "Vanderbilt" was well calculated to damage him in his community and among his friends. He did well to resent it.—Raleigh Post.

A Magnificent Opportunity.

Ex-President Cleveland is to be the principal speaker at the Iroquois club banquet in April. It would be interesting if he would give the inside account of how he and Carlisle and the Morgan syndicate saved "the national honor" at a profit to the syndicate of twenty million dollars a save.—News and Observer.

Progressive Degeneration.

The latest news in reference to the case of Robert Hancock, president of the Atlantic & North Carolina Railroad, is that he is not to be removed from office. This is rather surprising, for with all his malevolence, violence and wrong-headedness, Governor Russell has not shown himself lacking in regard for the ordinary decencies of life. The retention of Hancock in office in the face of the proofs against him would be the crowning infamy of an administration already more odious than any except one that the State has ever known.—Charlotte Observer.

TWO CENTENARIANS DEAD.

Lewis Harris Was 104 and Crazy—Judith Martin Was 115.

Elkin, Feb. 12.—Lewis Harris, the centenarian, died at his home near Roaring Gap hotel yesterday.

He was perhaps the oldest man in the state, being 104 years of age at the time of his death. When he settled in this country this vast domain was a vast wilderness. For the past three years he has been in the state bordering on imbecility. He had a mania for burning everything in sight and his people had to keep a continual watch over him to keep him from burning the house and furniture.

Judith Martin, the oldest negro woman in the state and perhaps in the south, died at her home near Ronda, Wilkes county, yesterday, aged 115 years. This is authentic.

About two years ago this old woman cut her second set of teeth, and her eyesight, which had failed, returned to her.—Charlotte Observer.

THE FIRST IRON CLAD.

An Interesting Bit of History Not Generally Known.

A well known Charlestonian now in the city in speaking the other night of the late war revealed a bit of history so little known and so interesting that it is herewith given. The narrator was a captain in the South Carolina troops, served with distinction during the war and was present at the bombardment and surrender of Fort Sumpter which began the hostilities of the civil war. Charleston was of course alive with projects for offensive and defensive warfare. In speaking of these incidents the captain declared that it was a curious fact that the great iron floating forts now called warships should have started from an old lighter in Charleston harbor. Yet such is the case. There was in the harbor an old lighter eighty feet by thirty. At the suggestion of a man who had never read a book on military fortifications nor fired a gun—the cashier of the Planters and Mechanics bank of Charleston—it was decided to turn the lighter into a war vessel. Accordingly it was covered with beams of wood ten inches square, set like the rafters of a house and joined securely at the top. To these beams ordinary railroad iron was spiked forming an iron shield over the whole surface. There was a port hole made through the iron and beams and through this a cannon protruded to spit defiance at the blockaders. Shot on striking this shield of iron would of course glance off harmlessly into the air. This queer engine of war was heavily ballasted with iron and old anchor chains to prevent it from keeling over. This, continued the captain, gave the cue to the building of the Merrimack. It was the first ironclad. It was also at Charleston that the first torpedo boat was used. It sank the U. S. warship Housatonic.

A Sensitive Pensioner.

Washington, D. C., Feb. 12.—Pension Commissioner Evans recently received from a pensioner in San Antonio an express order for \$879. It was money which the sender believed he had not properly received, and indicated by this feeling returned it to the government. Mr. Evans had an investigation made of the case, and ascertained that the pensioner was honestly entitled to the money he was receiving, viz., \$12 per month for deafness, and directed that the entire amount be returned to him.

Mrs. Mary Maschin, who kept a New York boarding house, has been sent to the workhouse for begging food on which she fed her lodgers.

The True Remedy.

"W. M. Repine, editor Tiskilwa, Ill., 'Chief,' says: 'We won't keep house without Dr. King's New Discovery for Consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for coughs, colds, whooping cough, etc.' It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at C. E. Holton's drug store."

EXPERIENCE

Is a Good Teacher

A VOICE FROM SALISBURY.

Salisbury, N. C., Dec. 4, 1897.
From my own experience I have found Mrs. Joe Person's Remedy the best medicine known for building up the health in general. The greatest remedy in the world for dyspepsia, eczema, aches and pains and breaking up colds. Nine years ago I suffered with a chronic cold which resulted in a bronchial affection and repeated serious troubles of the throat, which was alarming. I was affected with something like croup and again and again for years was subject to attacks of laryngitis. I tried Mrs. Joe Person's Remedy and am now free of all those troubles and have been ever since and feel confident the Remedy has made the cure. I have kept it in my family for years and have always found it invaluable for old and young. The extraordinary effect of this grand remedy is sure to be realized by all who give it a fair trial.
Sincerely,
MRS. M. E. RAMSAY.
